Examiner Amendment

1. Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Applicant's Agent, Mr. Stephen J. Walder, registration # 41,534 on 20 September 2004.

IN THE CLAIMS

Please amend claim 21 as follows:

21. (Amended) A computer program product in computer readable medium for configuring a storage area network, the computer program product comprising:
first instructions for collecting operating system data for a server, wherein the server is connected to a storage area network;
second instructions for comparing operating system data for the server to operating system data of the storage area network to identify an operating system type of the server and to select a configuration file from a list of configuration files based on the operating system type, wherein the configuration file contains configuration information for the storage area network; and
third instructions for configuring an operating system of the server based on the operating system type and the configuration information in the selected

Art Unit: 2142

configuration file, wherein the server operating system is automatically configured to allow the server to access the storage area network.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the inclusion of "*comparing operating system data for the server to operating system data of storage area network to identify an operating system type of the server and to select a configuration file from a list of configuration files based on the operating system type, wherein the configuration file contains configuration information for the storage area network; configuring an operating system of the server based on the operating system type and the configuration information in the selected configuration file, wherein the server operating system is automatically configured to allow the server to access the storage area network.*" in all of the independent claims. Black et al. U.S patent # 6,708,265 B1, do not have these limitations.

4. The Examiner's interpretation of the claim language is based upon Applicant's the argument received on 03 August 2004 (pages 10-15) and the enabling portions of the specification, (Fig. 5, Abstract, pages 13-17). Therefore, Applicant's instant claims are considered to be allowable.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
